

Welcome to Morphoo School!

At Morphoo we train and prepare future leaders, decision makers, influencers, and visionaries who will make great impacts in the nation, government, marketplace, as well as society, both at present and in the future. Here the students are equipped to be highly competent, confident, and intelligent individual with high moral value and principal.

Morphoo School offers both in class and distance learning that will be suitable for all children with diverse background and nationalities. Our mission is to provide an affordable international education for every family in Indonesia and beyond.

Our team of highly qualified local and international educators are committed to helping your child learn, grow, and thrive in a stimulating and supportive environment. Teaching in small groups ensures each child will get the attention and support they need, while still giving children the opportunity to gain social skills and build lasting friendships.

We utilize 2D/3D interactives, game-based learning, augmented reality, state of the art computer programming, as well as innovative hands-on activities in addition to the textbook. We believe our unique learning style would inspire awe and wonder in every child!
